| Teacher Profile and |
|---------------------|
| Quality |

The Institution has qualified and dedicated teachers. In addition, research centres with potential research supervisors are available. Faculty members of various departments regularly publish papers, books etc., and present papers during conferences/ seminars/ symposia and act as resource persons in different academic platforms.

Evaluation Process and Reforms

is followed which is Semester system effective, well ordered educational system with built-in internal Assessment as an integral part. All the question papers are being set and valued by the competent external examiners chosen from other institutions and Universities. There is only one valuation for UG programmes. Double valuation is followed for PG programmes, i.e., the first valuation by an internal examiner and the second valuation by an external examiner. If the mark difference between the valuation first and second exceeds prescribed limit, the paper is referred for third valuation by an external examiner. Students can apply for Retotaling, and Revaluation of answer paper. Viva-voce examinations are being conducted dissertations submitted by the PG students. Results are published within 30 days after the examination. A separate Examination wing is functioning as per UGC guidelines.

Student Performance and Learning Outcomes

Pass percentage is at an average of 90% in PG programmes and 79% in UG programmes. A greater part of the students opt for higher studies. Students are placed through campus interviews and also off-campus interviews.

Suggestions:

- 1. The IT infrastructure needs to be enhanced for conducting online classes and virtual classes for different courses.
- 2. Analysis for curriculum could be done using appropriate methods.
- 3. The value added courses may be increased in each department to provide wide knowledge to the students and to sharpen the expertise of the faculty members.
- 4. Orientation need to be given to the faculty members to obtain external grants for research and other academic activities.
- 5. E-governance could be implemented in the possible areas.
- 6. Homemade programmes may be developed for online record creation and maintenance.
- 7. MOU may be increased to extend the academic interactions with different institution and organizations.
- 8. Feedback system has to be converted in to online and analyses are to be done for policy implementation.
- 9. Consultancy services are to be enhanced.
